Product & Leadership Skills

- Product: Discovery & backlog ownership · user-story writing & prioritization · roadmaps · cost estimation (COGs) · stakeholder & client management · success metrics
- Methodology: Agile/Scrum, Waterfall · Jira, Confluence, Asana, Trello · requirement analysis & technical justification for funded R&D
- Delivery: Full dev-cycle ownership (planning → deployment) · team supervision (up to 5) · cross-functional coordination (Art, Design, AI, Data)
- Technical fluency: Unity3D, C# .NET, VR/AR/MR · code architecture · REST APIs · Git/PlasticSCM (so I can bridge dev and product credibly)

Professional Experience

INVELON (II

- Own the product backlog for XR solutions in Industry 4.0, Culture and Education; define requirements and prioritize user stories.
- Product Lead, "PoblARte" (AR, Android/iOS): drove UI integration, art supervision and store launches; MITECO-funded with Universidad de Oviedo.
- Business ownership: managed COGs and direct client communication to align development with commercial objectives.
- Shipped "FINVALIA – VR Training" (Meta Quest 3/3S) and the "Puente de Domingo Flórez" interactive museum screen (Windows).
- Translated expert knowledge into curriculum-aligned didactic materials; aligned academic and client scope with the project PM.
- Cut maintenance time 20% through modular C# architecture decisions (product-level technical judgment).
- Kept delivery-schedule deviation under 5% while synchronizing Art, Design, AI & Data teams.
- Ensured technical-justification audits for funded R&D projects.
- Stood up a VR/Game-Dev specialization course at a VET center: requirements, supervised planning with CEO, stakeholder coordination, documentation.
- Led VRFP simulators (Meta Quest 2) modernizing Spanish VET via Aulas Ateca; +15% integration speed via Git/PlasticSCM workflows; supervised 5 devs.

- Producer of "Harriet: From Slave To Hero" — scoped, planned and shipped a serious game from a university capstone.
