Summary

XR Developer
immersive
.NET imple
years in R&
and Innova

Core Skills

- XR & Game Dev: Unity3D, UE4/5, Godot 4.0 · VR/AR/MR (XR) · C# .NET, C/C++ · OOP, SOLID, design patterns · UI/UX implementation
- Product & PM: Product discovery & backlog · user-story prioritization · cost estimation (COGs) · stakeholder management · Agile/Scrum, Waterfall · Jira, Confluence, Asana, Trello
- Engineering: Code architecture & modularization · REST APIs · SDLC · Git/GitHub/PlasticSCM · Visual Studio / Rider
- People: Technical & product leadership · team supervision (up to 5 devs) · teaching · public speaking

Professional Experience

INVELON (I

- Lead requirements definition and user-story prioritization for XR solutions in Industry 4.0, Culture and Education.
- Product & technical lead for "PoblaRte" (AR, Android/iOS): coordinated UI integration, art supervision and successful store launches; project funded by MITECO with Universidad de Oviedo.
- Built "FINVALIA – VR Training" (Meta Quest 3/3S): principal developer of a virtual factory simulator for FINSA, promoting industrial digitalization & sustainability via XR.
- Developed an interactive screen for "Puente de Domingo Flórez" (Windows): immersive digital narrative contextualizing the history of Las Médulas (museography).
- Own estimations, COGs and direct client communication; full dev-cycle participation (planning → deployment).
- Technical advisor & instructional designer for the "Videojuegos y Realidad Virtual" specialist course; transformed expert knowledge into rigorous, curriculum-aligned didactic materials; direct alignment with project PM and client scope.
- PDI for "Fundamentos de Programación" (BSc Video Game Design). Planned/taught theory & practice, evaluated students, sat on the final-project tribunal.
- Designed modular C# architectures that cut technical maintenance time by 20%.
- Ensured technical-justification audits for funded R&D projects.
- Synchronized Art, Design, AI & Data teams, keeping delivery-schedule deviation under 5%.
- Built "FUNPER" (PC, AI + computer vision): gamified rehab system for cerebral-palsy patients — UI, virtual avatars, Docker/MQTT comms, gamification; led tests & deployment at Fundación Personas.
- Interactive showroom app for Industry 4.0 (sustainable energy / machinery; NDA). C# .NET, Unity3D; requirement analysis & technical planning with CTO.

- Stood up and managed the rollout of a VR/Game-Dev specialization course at a VET center: requirements gathering, supervised planning with CEO, stakeholder coordination, artifact documentation.

- Led VRFP simulators (Meta Quest 2) for the Aulas Ateca program, modernizing Spanish VET (Madera y Mueble, Alta/Media Tensión, Energía families).

- Improved integration speed by 15% via Git/PlasticSCM workflows.

- Supervised a 5-developer team; coordinated with Art, Design, Marketing.

- Producer & developer of "Harriet: From Slave To Hero" (serious game on real history), born from our university capstone.

- Built tools to capture/deploy user-behavior events for analytics (mentored by Lara Menéndez, now Product Director at Alokai).

Education

- MBA, Technological MBA (Digital Transformation, IT Leadership, Project & Team Management) — Universidad Internacional de La Rioja (UNIR), 2022–2023

- BSc, Video Game Design & Development (Honors, TFG) — Universidad Camilo José Cela (UCJC), 2017–2021

- HND, Creative Media Production – Game Development — UDIT, 2017–2020

- High School, Scientific-Technological — CES San Eutiquio – La Salle, 2015–2017

Certifications

- Google Project Management Professional Certificate (Google Fundae Scholarship)

- Cambridge English First (FCE, B2)

- ADGG087PO – Integrated Project Management

- Driving License B

Languages

- Spanish: Native · English: Professional Working (FCE B2)
